State History

OPTIONS FOR EFFECTIVE STATE HISTORY COURSES

Option 1: A.C.E. State History Research Project

Guided "hands-on" experience in research utilizing encyclopedias, Internet resources, and other materials. Outlined topic guide to enhance understanding and develop a deeper appreciation of state heritage. Work is put into a portfolio or notebook and presented for evaluation. A grading sheet is included with the packet.

Option 2: Contact [Local Ministry Rep](#) for Availability of specific state PACE Courses

Option 3: Utilize State History from a Christian Perspective Materials

We offer a complete State History Curriculum (*State History from a Christian Perspective*) for grades 3-12 as well as *My State History Funbook* for age 4 through Grade 2. Our levels are correlated so you can teach all ages together. Our lesson plans are generic, so you can even teach different states at the same time!

We also offer fifty-state studies that provide an overview of all fifty states in order of statehood. See *Fifty States Under God*, *Fifty States Under God for Young Learners*, and *Geography of the Fifty States*.
